Mission

To foster a transnational green, integrated energy system in the Baltic Sea region, with offshore wind and green hydrogen at its core.

Infographic OWE & H₂ roadmap

Infographic report outlining policy, grid, and planning towards regional OWE and green H₂ development (2024)

Events & network

Four real-life and two online events to foster exchange and build a regional OWE and H₂ network (ongoing)

BOWE2H event timeline

Kick-off event (digital)

BOWE2H final event

- Wednesday 18 September 2024
- In person
- In Berlin
- Hopefully hybrid!

**SAVE THE
DATE**

RESULTS

BOWE2H final event

- Interdisciplinary presentation of results
- Overall description of the BSR status quo and the potential of offshore wind energy and hydrogen
- Policy targets, grid infrastructure, exemplary projects and their transfer potential

BOWE2H final event

- Main output of the project: the Strategic Roadmap
- Final report containing an infographic summary
- Obstacles and mitigating measures for regional offshore wind innovation and hydrogen production
- Helping achieve an integrated, low-carbon energy landscape in the Baltic Sea Region

2–5 July 2024

Reframe the future:
Innovation and new narratives
to boost climate action
