

Targeting households at risk of energy poverty or other priority groups

Cross-country findings from the ENSMOV Plus' examples

Laure Baudart (ATEE / ENSMOV Plus)

EU workshop | Wednesday 20 March – Budapest

Co-funded by the European Union under project n°101076098. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Commission or CINEA. Neither the European Union nor the granting authority can be held responsible for them.

A topic specifically targeted by the EED

Article 8

Energy savings obligation

3. Member States shall implement energy efficiency obligation schemes, alternative policy measures, or a combination of both, or programmes or measures financed under a national energy efficiency fund, as a priority among, but not limited to, people affected by energy poverty, vulnerable customers, people in low-income households and, where applicable, people living in social housing. Member States shall ensure that policy measures implemented pursuant to this Article have no adverse effect on those persons. Where applicable, Member States shall make the best possible use of funding, including public funding, funding facilities established at Union level, and revenues from allowances pursuant to Article 24(3), point (b), with the aim of removing adverse effects and ensuring a just and inclusive energy transition.

What we are looking at

- Examples about **targeting policies to address energy poverty** or other priority groups
 - How priority groups are defined
 - How energy savings are accounted for and monitored
 - Main results
 - Lessons learned
 - Stakeholder interview
-
