### **ENSMOV**<sub>ELUS</sub> What are the key stakeholders of the EEOS in France?

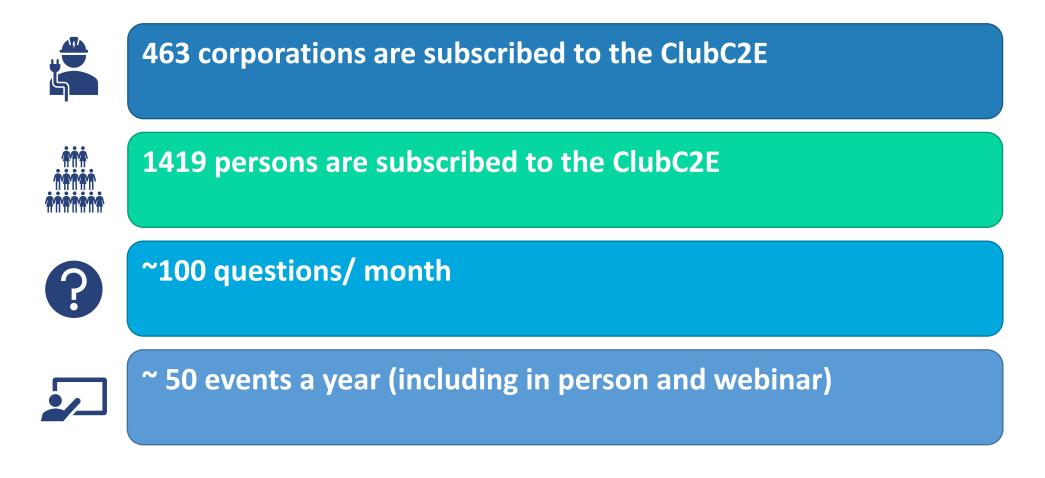

## **ENSMOV**<sub>PLUS</sub> What are the key stakeholders of the EEOS in France?

#### Stakeholders supporting the scheme

### **ENSMOV**<sub>PLUS</sub> What are the key stakeholders of the EEOS in France?

Figures about ATEE Club C2E: Updated on March 2024

### **ENSMOV**<sub>PLUS</sub> Informing and working with the stakeholders

#### Focus on ATEE ClubC2E

The CEE club, created in 2006, is a neutral, federating meeting place for players involved in the CEE scheme.

Its main missions are:

- Our missions
- Develop and maintain the catalog of standard actions eligible to the scheme.
  - Answer questions about the CEE scheme.
  - Communicate to raise awareness and knowledge of the scheme.

Events done in 2023-2024 : Communicate to raise awareness and knowledge of the scheme.

#### Pollutech 2023 (professional fair) :

Events done in 2023-2024 : Communicate to raise awareness and knowledge of the scheme.

#### JT CEE : Review and outlook for the 5th period of the scheme

Events done in 2023-2024 : Communicate to raise awareness and knowledge of the scheme.

#### Regional Webinar and in person

# Regional day: bi-annual meeting of regional ATEE branches

### **ENSMOV**<sub>PLUS</sub> Working Groups on standardized action

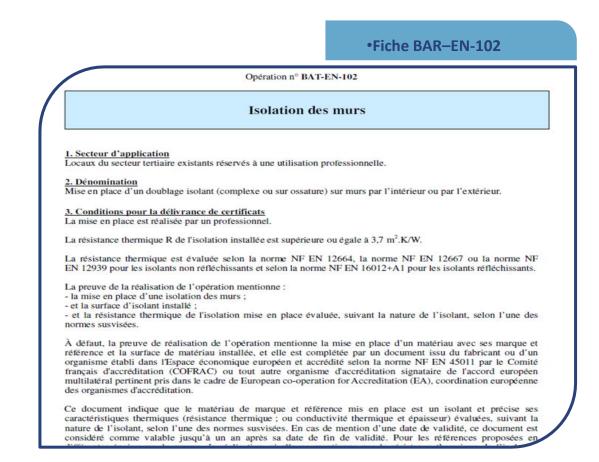

### Develop and maintain the catalog of standard actions eligible to the scheme

Main Criteria for the opportunity	Standardized action sheet content :	
<u>sheet:</u>	Area of application	Assessment period
Genericity	Description	6 to 24 months
Energy savings (real and potential)	Conditions for issuing certificates Duration of	Termination after 5
Robust data	the operation	
Coverage rate	Declaration on honour	<b>years</b>
$\sim$		From 01/01/2022

### **ENSMOV**<sub>Rus</sub> Working Groups on standardized action

- **1.** Area of application: Gives the scope of the operation, specifying whether the operation applies to new or existing buildings, collective or individual dwellings.
- **2. Description:** Explanation of the operation to be valued (purchase of equipment or rental, valuation of a service, etc.).
- **3.** Conditions for issuing certificates: Criteria for the technical and practical requirements that the equipment and/or its installation must meet.

### ENSMOV<sub>PLUS</sub> Working Groups on standardized action

4. Duration of the operation being valued: This is associated with the equipment installed or the service.

**5.** Amount of certificate in kWh Cumac : Final energy savings achieved by the operation over the ( updated ) lifetime of the operation.

**Appendix :** This includes part A of the declaration on honour concerning the operation's eligibility criteria.

#### 4. Durée de vie conventionnelle 30 ans. 5. Montant de certificats en kWh cumac Montant en kWh cumac par m<sup>2</sup> d'isolant en Surface d'isolant fonction de la zone climatique (m<sup>2</sup>) H1 H2 H3 Х S 1700 1400 900 Annexe 1 à la fiche d'opération standardisée BAR-EN-101, définissant le contenu de la partie A de l'attestation sur l'honneur A/ BAR-EN-101 (v. A27.2) : Mise en place d'une isolation thermique en comble perdu ou en rampant de toiture \*Date d'engagement de l'opération (ex : date d'acceptation du devis) : ..... Date de preuve de réalisation de l'opération (ex : date de la facture) : ..... \*Date de la visite préalable du bâtiment où ont eu lieu les travaux : ..... Référence de la facture : .....

\*Pour les personnes morales : nom du site des travaux ou nom de la copropriété : ...... \*Adresse des travaux : ...... Complément d'adresse : ......

\*Code postal : ....

\*Ville : .....

\*Bâtiment résidentiel existant depuis plus de 2 ans à la date d'engagement de l'opération : 🗆 Oui 👘 Non

\*Type de pose (l'isolation est réalisée entre un espace chauffé et un espace non chauffé) :
□ en combles perdus ;
□ en rampant de toitures

Caractéristiques de l'isolant posé : \*Surface d'isolant posé (m<sup>2</sup>) : ...... \*Résistance thermique : R (m<sup>2</sup>.K/W) : .....
